WELCOME

Welcome to the Universal English!

English is the most commonly used language in world which has endless benefits. English language skills help our students get better jobs, travel easier and meet new people, understand movies and music, check in at airports and hotels etc. At Universal English we have a large range of courses with different purposes and objectives. All of our courses use different books, have different assessments and use different teaching methodologies. Our courses are professionally designed and we ensure that all students are exposed to different learning styles and are able to learn and connect with the topic.

Our teachers are all qualified, have international teaching experience, have studied a second (sometimes third and fourth) language and love the English language. They are able to create energetic and exciting lessons where students can increase their confidence and improve their English.
